

The Network for Law Enforcement

The most powerful network of users, information and technology in American Law Enforcement

Forensic Logic COPLINK and its partners are redefining how law enforcement professionals access information to keep themselves and their communities safe.

The Finest Search and Analysis in the Industry

We've combined our industry-leading search engine with COPLINK's advanced analytics and reporting to offer a full suite of information technology in one platform. The finest tools and the richest data are now matched with streamlined integrations and rapid deployment.

A Universe of Data Delivered to Your Agency

Our alliance with Thomson Reuters CLEAR[®] means officers and analysts will have not only agency data but critical public records data at their fingertips. Thomson Reuters CLEAR continues to be the premier provider of public and proprietary investigative data for public safety.

The Power of the Network

With the largest network of agencies in the industry, we offer a singular ability to access critical information not only from across your agency's IT systems, but across the county, state and country as well.

Mission-Critical Tools Built On Mission-Critical Data

From CompStat reporting to Crime Gun Analysis, Operational Performance, NIBRS Compliance and countless other areas, we have an offering to help your agency with its most complex technological and operational problems.

Trusted Nationwide, Every Minute of Every Day

With over 70,000 users, Forensic Logic helps thousands conduct thousands of investigations every single day.
